Project Design Phase-II

Customer/Journey Map
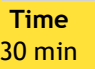

Date	03 October 2022
Team ID	PNT2022TMID53701
Project Name	AI-Powered Nutrition Analyzer for Fitness Enthusiasts
Maximum Marks	2 Marks

User journey
by the Design Team of Accenture Interactive NL

People 2-9 **Time** 30 min **Difficulty** Beginner

Creating a user journey is a quick way to help you and your team gain a deeper understanding of who you're designing for, aka the stakeholder in your project. The information you add here should be representative of the observations and research you've done about your users.

Phases High-level steps your user needs to accomplish from start to finish	Open	Capture/Upload The Image	Software Starts To Analyze	Displays the Result
Steps Detailed actions your user has to perform	Starting The Application	The Captured Image Is Uploaded By The User	The Software Now Starts To Analyze The Image After The Upload is Success	The Nutrition Of The Image Of The Food Provided gets Displayed
Feelings What your user might be thinking and feeling at the moment	The User Interested to Calculate The Nutrition Present In The Uploaded Image	Does The Software Works Correctly .. ?	Does The Result Displayed is Accurate . ?	The User Will Decide Based On The Analysis Displayed
Pain points Problems your user runs into	Analysis Time	Capturing Quality Image	Proper Training Of Model	Understanding The Terms Present in Analysis
Opportunities Potential improvements or enhancements to the experience	Improved Booting Time and Processing Speed	Complete Analysis with Future Advanced Models	Training the Model with Improved Data Set and updating to User	Interactive Model for Easy Understanding
